Summary

I am an AI & Security Researcher based in Abu Dhabi, UAE, working on generative models for cybersecurity and drones. Previously, I spent five years as a researcher at the Agency for Defense Development (ADD), conducting research in AI-driven cybersecurity. I am also a Ph.D. candidate in Cybersecurity at Korea University, where I earned my B.E. in Cyber Defense. My research interests lie at the **intersection of AI and cybersecurity**, focusing on generative models, AI-driven security, network security, and secure communications.

Research Interests

- **AI for Cybersecurity:** threat intelligence using NLP/LLM, HW security (side-channel analysis), adversarial ML
- **Network and Wireless Security:** drones, robust communications, network IDS, anomaly detection
- **Generative Models:** diffusion transformers and GANs for data augmentation, LLM for vulnerability detection

Education

Ph.D. Candidate in Cybersecurity, Korea University – Seoul, Republic of Korea Sep 2019 – Present

- Topic: Generative Models for Data Augmentation in Multi-Domain Cybersecurity

B.E. in Cyber Defense, Korea University – Seoul, Republic of Korea Mar 2014 – Feb 2018

- Studied computer science, cybersecurity, cryptography, and secure coding

Employment History

Lecturer, Korea University – Seoul, Republic of Korea Sep 2025 – Present

- Taught graduate-level course "Computer Networks (SCS 302)"

Research Intern, Indiana University – Bloomington, Indiana, USA Mar 2025 – Jun 2025

- Researched quantification methods for ML security in autonomous vehicle systems

Security Engineer, Ministry of National Defense – Republic of Korea Aug 2023 – May 2025

- Collaborated with international colleagues and led AI-based security projects in the UAE
- Executed cyber defense operations and developed automation tools at the Cyber Operations Command

Researcher, [Agency for Defense Development \(ADD\)](#) – Seoul, Republic of Korea Jul 2018 – Jul 2023

- Carried out three AI-driven cybersecurity projects, conducting research and in-house software development
 - (1) "Detection of Nation-Sponsored Cyber Attacks Using NLP Technologies" (Apr 2021 – Jul 2023)
 - (2) "Generative Models for Cybersecurity Data Augmentation" (Jun 2019 – Oct 2020)
 - (3) "IPADS: Integrated Proactive and Adaptive Defense Systems" (Aug 2018 – May 2019)
- Published seven international papers [C1, C2, J2, J3, J4, J6, J8], four patents, and 12 domestic papers

Technical Skills

- Frameworks/Tools: PyTorch, Keras, TensorFlow, scikit-learn, pandas, Git, Streamlit
- Programming Languages: Python, C, JavaScript, SQL
- Languages: English, Korean

Real-Time Intrusion Detection,” in *Proc. of the KIMST Annual Conference*, Jun. 2019.

Other Experience

- AI Cyber Challenge (AIxCC), DARPA and ARPA-H, USAApr 2024 – Aug 2024
- Participated in the semifinal round as a member of Team KORIA, submitting our cyber reasoning system that leverages LLMs for automated detection and patching of software vulnerabilities
- SW Outsourcing Development, KCMVP-Certified Cryptographic ModuleJun 2017 – May 2018
- Implemented a cryptographic module with 25,000 LoC in C while following secure coding conventions
 - Covered the ARIA block cipher (modes: ECB, CBC, CTR), hash functions (SHA-256, SHA-512), and HMAC-based DRBG for Windows (.dll) and Linux (.so), respectively

Awards and Honors

- Outstanding Paper Award, CISC-W’25, KIISC (Paper Title: EM-Based Anomaly Detection using a Dual-Domain Approach)Nov 2025
- Ambassador’s Commendation for excellence in defense cooperation, Embassy of the Republic of Korea to the United Arab EmiratesMar 2025
- The 3rd Prize, Military Cybersecurity Experts Hackathon, Ministry of Science and ICT, Republic of KoreaDec 2023
- Full Tuition Scholarship, Ministry of National Defense, Republic of KoreaMar 2014 – Feb 2018

Mentoring Experience

- Sujin Park (Ph.D. Student at Korea University)Jun 2025 – Present
Side-channel analysis for anomaly detection
- Hyunjun Park (Navy Lieutenant at Ministry of National Defense)Nov 2024 – Feb 2025
DDoS detection via transfer learning (paper published at JICS)
- Kangmun Kim (First Lieutenant at Cyber Operations Command)Jan 2024 – Sep 2024
Web shell detection via user behavior embedding (paper published at JKIISC)

Professional Service

- Reviewer
